

## The Good Warrior – NSW 2025

The Good Warrior is an innovative social impact initiative transforming how we address bullying, violence, and bystander behaviour through technology, education, and community empowerment.

By connecting lived experience with practical intervention strategies, this pioneering organisation creates powerful tools for recognising and responding to harmful behaviours at school, work, and in our communities.

With unwavering courage, The Good Warrior doesn't just raise awareness, it builds a movement of empowered individuals ready to stand up, speak out, and create lasting cultural change. Together, we're developing the next generation of digital solutions and educational resources that turn passive Bystanders into Warriors of Change, fostering a culture where courage overcomes silence.
